

REACH Statement Effective July 2022

Regarding Meyer Tool Inc.'s (MTI) activities with respect to REACH, the European Union Regulation concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals, please be advised of the following:

- **Awareness and Focus** - Meyer Tool, Inc.'s is fully aware of the European REACH Regulation EC No, 1907/2006 and has dedicated resources to deal with legislative requirements and business continuity concerns related to REACH.
- **Registration of Substances** - Although MTI is principally a supplier of articles, which do not require registration under REACH, we have completed the process of contacting our suppliers of substances, preparations, and articles, in order to ensure that all necessary registration requirements are being met.
- **Ongoing Supply of Our Products** - MTI has an ongoing effort to be in compliance with REACH registration obligations and therefore does not expect any disruption in the supply of materials used in MTI products or the supply of MTI products to our customers.
- **Communication of Substances of Very High Concern (SVHC)** - We are regularly monitoring the continuing additions of Substances of Very High Concern (SVHC) to the Candidate List.
- **Update** - On 17 January 2022 the total number of SVHC increased to 223 chemicals, Meyer Tool maintains compliance by not using Substances of Very High Concern.

The products listed do not contain any of the published SVHC. Be assured that if any SVHC are identified in any of our products above the threshold of 0.1% by weight, we will communicate the required information to our customers, in accordance with REACH Article 33.

If there are questions or concerns, please contact the representative at Meyer Tool, Inc. in which you do business, or email mineral_info@meyertool.com.
